

## Application:

☐ Retail Storefront Windows    
 ☐ Shopping Malls    
 ☐ Glass Curtain Wall Buildings    
 ☐ Restaurants & Cafés

## Technical Specifications(Transparent Film LED Screen):

| Item                                                                                                                             | P10                             |
|----------------------------------------------------------------------------------------------------------------------------------|---------------------------------|
| Module Size (mm)                                                                                                                 | 1000*240                        |
| Module Resolution (pixels)                                                                                                       | 100*24                          |
| Pixel Density (pixels/m²)                                                                                                        | 100*100                         |
| LED Lamp Configuration                                                                                                           | 1R1G1B                          |
| Brightness                                                                                                                       | 3000 cd/m²                      |
| Transmittance                                                                                                                    | 93%                             |
| Refresh Rate                                                                                                                     | 3840 Hz                         |
| Peak Power Consumption                                                                                                           | 720 W/m²                        |
| Average Power Consumption                                                                                                        | 260 W/m²                        |
| Operating Environment                                                                                                            | Temp: -0~55℃Humidity: 10~75% RH |
| Service Life                                                                                                                     | 100,000 Hours                   |
| Driving Mode                                                                                                                     | Static Drive                    |
| Gray Scale                                                                                                                       | 16 bit                          |
| Control System                                                                                                                   | Nova / Colorlight               |
| Input Voltage                                                                                                                    | AC 110-240V, 50/60Hz            |
| Viewing Angle                                                                                                                    | 160°                            |
